Pride ~ Perseverance ~ Achievement ~ Character ~ Success

Culture Board Report June 2015
Mr. Glasco Director of Student Support Services

Since the last board meeting there were 0 suspensions:

Using proactive measures before and during the month of June started Glasco along with the help of Jones conveyed to staff the importance of maintaining school-wide and classroom specific routines and procedures so that the end of the school year would remain calm and consistent with fidelity to the Peninsula Preparatory Academy Charter School behavior model.

In addition this was a time of reflection in terms of holding students, parents and teachers more accountable for low-level behavior in fractions. Additionally Glasco anticipates having one on one weekly check in's with teachers during the 2015-16 school year to proactively provide strategies.
