

Special Education Monthly Report -December/2014 – January 13, 2015

Norman S Fairley- Special Education Coordinator

IEP STATS:

- Scholars with IEP's have increased from 28 to 31
- 11 scholars with parental request to CSE for evaluations

1/12/2015- I attended training at St. Francis College on "The IEP Process" which was conducted by the (CSE) Committee on Special Education. The training was very informative and beneficial to Peninsula Preparatory academy as a whole. Some of the topics discussed included:

- Six steps to the IEP process
 - I) Initial Referral
 - II) Evaluation
 - III) Eligibility Recommendations
 - IV) IEP Implementation
 - V) Annual Review
 - VI) Reevaluation (must take place every 3 years)
- CSE has a 60 day turnaround from the initial to the conclusion.
- RTI data should be maintained to support the need for services.
- Parental requests are preferred over referrals (much easier when parents are on board).
- Teacher report and goals are requested two weeks in advance prior to IEP meetings for review.
