Guidance Lessons

Topic: Career/College Readiness

As we get ready for our Career/College Awareness on March 16th and 17th, the scholars were introduced to different colleges and the process it takes for one to make it to the college of their choice. The scholars learned about the different levels of education. The scholars had an opportunity to write about their aspirations, the reason they choose that career, and the background knowledge they already have concerning their desired profession. During our time together, they scholars are introduced to several careers, the skills and educational requirements necessary in order to achieve their professional goals.

Middle School

- The scholars have been prepped for their interviews through a series of meetings and mock interviews.
- The scholars are going through the interview process. KAPPA VI invited 23 scholars for interview out of the 32 applicants. The scholars and parents were interviewed simultaneously. The interviews were then followed up with assessments in both ELA and Math.
- Scholars' Academy invited 16 scholars out of the 29 applicants. These scholars' interview will take begin on march 18th.
